

UNITED STATES GOVERNMENT

Memorandum

TO : EO/OEL

DATE: 6 November 1964

FROM : DAD/S&D

SUBJECT: Attachment

I feel a little bit peculiar about requesting permission to do something which we obviously have been doing for some time. I am also concerned about things getting too formal in the use of the OSA communications channels. Will you please check and see what the requirement is for this memorandum prior to releasing it? I think that this information should come from the OSA side of things rather than Signal Measurement Staff.
